**W**elcome to Delhi Wonder World Pre School, Siliguri. The Sadanand Radhika Mangal Charitable Trust which is setting up the Delhi World Public School is the same trust that has decided to come up with a World class Preschool. In fact, it is the need of the hour. We believe that at every step education is important. More so when they happen to be the early steps for carrying the future foundation.

Today the preschool years are the most important for a child. From 6 weeks to 6 years of age children reach crucial milestones that impact their future learning. # Message From The Chief Executive Officer (CEO)

**PROF DR R K SINGH**  
**CHIEF EXECUTIVE OFFICER (CEO)**  
**DELHI WONDER WORLD SILIGURI SILIGURI, WEST BENGAL**  
**DELHI WORLD PUBLIC SCHOOL SILIGURI, WEST BENGAL**

We at Delhi World Public School are rooted in the fact that every student is unique and special. We are a one-form entry school that favors personalized attention with excellent co-ordination between the teaching staff, the departmental heads and the School's psycho-pedagogy department. Your child is never "just another number". He or she is an important member of our school community. His or Her growth as a well-rounded human being is a responsibility we take very seriously.

Our objective is to experience learning in a positive, balanced and complete way so that we can prepare your child for the future. Our results will vouch for our excellence. But much more than that, we educate for values in life and that is why apart from teaching, DWPS, Siliguri is an institution that is convinced that we must learn as a community, in an environment of respect, solidarity and dialogue. Education in values has no timetable, as it is a part of all subjects at any given time of the day.

There is a growing concern that today's children spend too much time in front of screens and not enough time interacting with nature. At DWPS, Siliguri, our students will have plenty of opportunities to get to know the Earth. In so doing, they will get a balanced physical, psychological and educational foundation and become good stewards of our planet. In the hallowed four walls of the school, as the students move from pre-adolescence to adolescence, they are given the safety and continuity to flourish in an arena that is rarely seen in our fast-paced 'get-it-done-yesterday' world.

Make DWPS, Siliguri the School of your choice for your ward, which in every way will fulfil the modern day needs of education and secure the future of your child

# WHY EARLY CHILDHOOD EDUCATION

The first six years of a child's life are critical in laying a sound foundation for a child's lifelong learning. It is known as the early childhood stage. The pace of development in these years is extremely rapid. Early childhood years are where the brain undergoes rapid development. It is in these years cognitive skills i.e. the foundation for reading math, science and academics, the social and psycho motor competencies significantly develop which contribute to success in life. Early childhood education is also important as a foundation for inculcating social, personal and moral values. In fact, the New National Education Policy 2018, has designed a curriculum for two years of preschool before class 1 which includes three major goals to be achieved highlighting the key concepts /skills, the pedagogical processes and learning outcomes for preschool.

# WHY DELHI WONDER WORLD

Architect's Impression front view

**T**ill this day we all have deprived our tiny tots, of the right and ideal environment to blossom so that they would be able bring out the best in themselves in a natural way thus providing us with an opportunity to know them better and hone up their skills and talents , laying a foundation for their future life.

In Short in early childhood we want our children to have fun, be happy, feel safe and grow in confidence which today's play schools miss out. Though the best ones in the country make tall promises with all modern infrastructures and facilities, what they probably forget or fail to provide in the true sense is the real care and guidance which any natural parent would long to give to his child in order to help the child develop the ability to be creative, independent thinker and problem solver.

Here at Delhi Wonder World, Siliguri things are absolutely different. From day one our highly qualified and experienced teachers and assistants work dedicatedly to instil a sense of resilience and perseverance through fun and stimulating hands – on experience that celebrate individual abilities and talents.

It is only here that we provide a rich combination of daily self-initiated activities, guided lessons and small and large group interactions. Our core program is enriched by strong partnerships with parents and regular lessons with specialists in art, performing art, music and dance.

**This is where Delhi Wonder World is different.**
